- 6. Configure the StrataSync settings:
 - Server Type:
 - Select Viavi Server if you are using VIAVI's secure cloud-based server.
 - If your company has it's own StrataSync server, select Server Address and type in the server address.
 - Account ID:
 - Press the right arrow key on the T-BERD/MTS to display the keyboard.
 - Enter your StrataSync Account Number.
 - Technician ID:
 - Press the right arrow key on the T-BERD/MTS to display the keyboard.
 - Enter your StrataSync **Tech ID**.
 - **Upload From:** This is the OTDR folder which will be synchronized with StrataSync. You can change it to any available folder on the test set.
 - To change the folder, press the **FILE** hard key and highlight the desired folder.
 - Note that only files that have not been uploaded will be uploaded. Only files in that one folder will be uploaded.
- 7. Once all configurations are set, tap the **Connect to StrataSync** soft key on the top right of the

display. A **Cloud** icon will appear in the **Status Bar** on the top screen. As soon as it disappears and the **Connect to StrataSync** soft key becomes available, your sync process is finished.

8. After your StrataSync connection has been configured and activated for the first time, you can also sync your unit directly from the **Home Screen** by tapping the **StrataSync** icon.

Accessing your Stratasync Account via WEB Browser:

1. Open your web browser, go to: <u>http://stratasync.viavisolutions.com</u>, and enter your **User Name** and **Password** to login to your StrataSync Account
